

CyberSciTech 2026

The 11th IEEE Cyber Science and Technology Congress

November 9-13, 2026, Melbourne, Australia

<https://cyber-science.org/2026/cyberscitech/>

Organizing Committee

Honorary Chairs

Stephen S. Yau, Arizona State University, USA
Qun Jin, Waseda University, Japan
Jiliu Zhou, Chengdu Univ. of Info. Tech., China

Advisory Chairs

Qing Li, Hong Kong Polytechnic University, Hong Kong
Klimis Ntalianis, University of West Attica, Greece
Wei Lu, Beijing Jiaotong University, China

General Chairs

Feng Xia, RMIT University, Australia
Wenny Rahayu, La Trobe University, Australia
Xiaokang Zhou, Kansai University, Japan

General Executive Chairs

Celimuge Wu, The Univ. of Electro-Comm., Japan
Chao Chen, RMIT University, Australia

Program Chairs

Ao Guo, Nagoya University, Japan
Fengling Han, RMIT University, Australia
Huan Nguyen, Middlesex University, UK

Program Co-Chairs

Huaming Chen, University of Sydney, Australia
Yan Huang, Kennesaw State University, USA
Xiaoyan Wang, Ibaraki University, Japan
Weimin Li, Shanghai University, China
S. Leili Mirtaheri, University of Calabria, Italy
Qin Wang, CSIRO, Australia
Lai Tu, Huazhong University of Sci. & Tech., China
Chen Yang, Institute of Software CAS, China

Workshop & Special Session Chairs

Pan Wang, Nanjing Univ. of Posts & Telecomm., China
Yegang Du, Tohoku University, Japan
Xiwei (Sherry) Xu, CSIRO, Australia

Poster Chair

Xiaokun Zhang, Athabasca University, Canada

Publication Chair

Ruichen Cong, Waseda University, Japan

Special Issue Chair

Ke Yan, Hunan University, China

Local Chair

Sheng Wen, Swinburne Univ. of Technology, Australia

International Liaison & Publicity Chairs

Xiaohua Feng, University of Bedfordshire, UK
Hongxin Yan, Athabasca University, Canada

Web Chairs

Bo Wu, Tokyo University of Technology, Japan
Wanlun Ma, Swinburne Univ. of Technology, Australia

Steering Committee

Jianhua Ma (Chair), Hosei University, Japan
Hui-Huang Hsu, Tamkang University, Taiwan
Qun Jin, Waseda University, Japan
Laurence T. Yang, St. Francis Xavier University, Canada
Jun Wang, University of Central Florida, USA
Stephen S. Yau, Arizona State University, USA
Mazin Yousif, T-Systems International, USA
Albert Zomaya, The University of Sydney, Australia
Kevin I-Kai Wang, The Univ. of Auckland, New Zealand
Bernady O. Apduhan, Kyushu Sangyo Univ., Japan
Oscar Lin, Athabasca University, Canada
Giancarlo Fortino, University of Calabria, Italy
Moayad Aloqaily, MBZUAI, UAE
Frank Hsu, Fordham University, USA
Jinhua She, Tokyo University of Technology, Japan

Transforming the Future by Disruptive Cyber Technologies

Cyberspace, the seamless integration of physical, social, and mental spaces, is an integral part of our society, ranging from learning and entertainment to business and cultural activities, and so on. There are, however, a number of pressing challenges such as safety and trust associated with the cyberspace. For example, how do we strike a balance between the need for strong cybersecurity and preserving the privacy of ordinary citizens?

To address these challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social, cyber-intelligent, and cyber-life technologies in a cohesive and efficient manner. This is the aim of the IEEE Cyber Science and Technology Congress (CyberSciTech). IEEE CyberSciTech has been successfully held in Auckland, New Zealand, 2016, in Orlando, USA, 2017, in Athens, Greece, 2018, in Fukuoka, Japan, 2019, in Calgary, Canada, 2020 and 2021 (online due to COVID-19), in Calabria, Italy, 2022, in Abu Dhabi, UAE, 2023, in Boracay Island, Philippines, 2024, and in Hakodate City, Japan, 2025.

In 2026, we will continue to offer IEEE CyberSciTech with the aim of providing a common platform for scientists, researchers, and engineers to share their latest ideas and advances in the broad scope of cyber-related science, technology, and application topics. In addition, this is also a platform to allow relevant stakeholders to get together, discuss and identify ongoing and emerging challenges, in order to understand and shape new cyber-enabled worlds.

IEEE CyberSciTech 2026 Tracks and Topics

Track 1: Cyberspace Theory & Technology

- ✧ Cyberspace Property, Structure & Models
- ✧ Cyber Pattern, Evolution, Ecology & Science
- ✧ SDN/SDS, 5G/6G, Vehicle & Novel Network
- ✧ Cloud, Fog, Edge & Green Computing
- ✧ Big Data Analytics, Technology & Service
- ✧ Infrastructures for Smart City/Country

Track 2: Cyber Security, Privacy & Trust

- ✧ Cyber Security, Safety & Resilience
- ✧ Cyber Crime, Fraud, Abuse & Forensics
- ✧ Cyber Attack, Terrorism, Warfare & Defense
- ✧ Cyber Privacy, Trust & Insurance
- ✧ Blockchain, DLT Techniques & Applications
- ✧ Post-quantum Cryptography

Track 3: Cyber Physical Computing & Systems

- ✧ Cyber Physical Systems & Interfaces
- ✧ Cyber Physical Dynamics & Disaster Relief
- ✧ Cyber Manufacturing & Control
- ✧ Embedded Systems & Software
- ✧ Autonomous Robots & Vehicles
- ✧ IoT, Digital Twin & Smart Systems

Track 4: Cyber Social Computing & Networks

- ✧ Social Networking & Computing
- ✧ Computational Social Science
- ✧ Crowd Sourcing, Sensing & Computing
- ✧ Cyber Culture, Relation, Creation & Art
- ✧ Cyber Social Right, Policy, Laws & Ethics
- ✧ Cyber Learning, Economics & Politics

Track 5: Cyber Intelligence & Cognitive Science

- ✧ Cyber/Digital Brain & Artificial Intelligence
- ✧ Hybrid & Hyper-connected Intelligence
- ✧ Affective/Mind Cognition & Computing
- ✧ Brain/Mind Machine Interface
- ✧ AI Agents & Embodied Intelligence
- ✧ Intelligent Object, Environment & Service

Track 6: Cyber Life & Wellbeing

- ✧ Cyber Life & Human Centric Computing
- ✧ Cyber Medicine, Healthcare & Psychology
- ✧ Cyborg/Wearable/Implantable Technology
- ✧ Human/Animal Behavior Recognition
- ✧ Personal Big Data & Personality Computing
- ✧ Augmented/Mixed Reality & Metaverse

CyberSciTech 2026 Submissions and Publications

IEEE CyberSciTech 2026 calls for original papers, together with workshop and special session (SS) proposals, which focus on specific subjects related to cyber science and technology. Submission link: <https://edas.info/N35527>

All accepted regular, work-in-progress (WiP), and poster papers as well as workshop and SS papers will be published by IEEE in the Conference Proceedings (IEEE-DL and EI indexed). Selected high quality papers will be recommended to prestige journal special issues.

Three Co-located IEEE International Conferences

- ◆ The 24th IEEE Int'l Conf. on Dependable, Autonomic and Secure Computing (**DASC 2026**)
- ◆ The 24th IEEE Int'l Conf. on Pervasive Intelligence and Computing (**PICom 2026**)
- ◆ The 12th IEEE Int'l Conf. on Cloud and Big Data Computing (**CBDCom 2026**)

IMPORTANT DATES

Workshop/SS Proposal Due: Jul. 10, 2026
Regular Paper Submission Due: Jul. 15, 2026 Jul. 31, 2026
WiP/Poster/Wksp/SS Paper Due: Aug. 15, 2026
Late Breaking Innovation Due: Aug. 20, 2026
Author Notification: Sep. 01, 2026
Camera-ready Submission Due: Oct. 01, 2026
